John Vaden  
Agreements & Exports Branch  
Fuels and Materials Licensing

X cc: Materials & Services Branch, DIP

We have received written confirmation from Canada, that the above material, proposed for export, will be subject to all the terms and conditions of the following Agreement for Cooperation: U.S. - Canada

which entered into force on July 21, 1955; and that the ultimate consignee is authorized to receive and possess the material. We are of the opinion, therefore, that the issuance of the export license would not be inimical to the interests of the United States.
