Docket No. 40-502
License No. 37-7653-2

Aluminum Company of America
Aluminum Research Laboratories
Freeport Road
New Kensington, Pennsylvania

Attention: Mr. C. E. Proctor
District Purchasing Agent

Gentlemen:

This refers to the inspection conducted on July 21, 1959 of your activities authorized under AEC Byproduct Material License No. 37-7653-2 and Source Material License No. C-4724.

We note that drums used to store waste byproduct material were not labeled with the information required by the AEC's "Standards for Protection Against Radiation," Part 20, Title 10, Code of Federal Regulations, Section 20.203(f)(4), "Caution signs, labels and signals." This requirement was brought to your attention by the inspector, and you stated that you would correct the deficiency. Should you have any questions about this matter, please feel free to write us. Labeling will be reviewed during the next inspection of your facilities.

There were no other items of noncompliance noted as a result of this visit. We appreciate the cooperation given the AEC representative.

Very truly yours,

James R. Mason, Chief
Isotopes Branch
Division of Licensing and
Regulation
