United Nuclear Corporation
ATTN: Mr. Wallace Ruff, Manager
Fuels Recovery Operations
Wood River Junction, Rhode Island 02894

Gentlemen:

Amendment No. 59 to Special Nuclear Material License No. SNM-777 issued July 16, 1971, incorporated as a condition of this license the arrangements you have established with Gulf United Nuclear Fuels Corporation (GUNFC) for technical assistance in the conduct of the radiation safety, nuclear criticality safety and nuclear materials safeguards programs at your Wood River Junction operations. During a meeting on June 23, 1971, to discuss these arrangements made with GUNFC, your Mr. Lindberg indicated that they were established only for an interim period and that by the end of this calendar year the United Nuclear Corporation planned to fully provide for these functions within its own organization. Based upon these discussions, we agreed to extend the expiration date of License No. SNM-777 for six months to enable you to complete the necessary arrangements and staffing. We request that you provide a description of the arrangements that you make regarding these matters in order that it can be taken into account in considering renewal of the license for the full term.

Accordingly, Special Nuclear Material License No. SNM-777 is hereby amended to extend the expiration date to January 31, 1972.

FOR THE ATOMIC ENERGY COMMISSION

Original Signed by
Leland C. Rouse

Donald A. Nussbaumer, Chief
