Director, Division of Materials Licensing  
U. S. Atomic Energy Commission  
Washington, D. C. 20545

Attention: Mr. Donald A. Nussbaumer, Chief  
Fuel Fabrication and Transportation Branch

Reference: AEC License No. SNM-777, Docket 70-820

Gentlemen:

United Nuclear Corporation requests that AEC License No. SNM-777 be amended to revise and more accurately specify the quantities of special nuclear and source materials to be possessed and used. The new limits should be 4000 kilograms of contained U-235 as special nuclear material and 100 kilograms of uranium and thorium as source material.

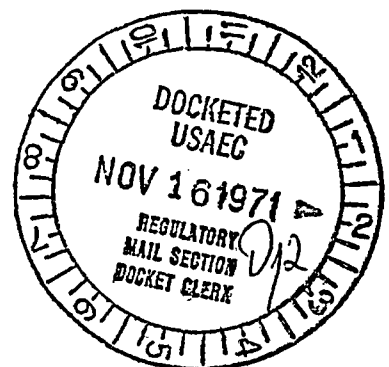

I would appreciate your acting upon this request independent of our application for renewal of SNM-777 since the fees for this license must be remitted by December 4, 1971.

Sincerely,

W. G. Ruff  
Plant Manager
