K

U.S. Atomic Energy Commission Agreements and Exports Branch Norfolk Avenue Bethesda, Maryland, 20014

Attention: Gene Blanc, Chief

Gentlemen:

The attached application is submitted for approval to export 15.0 Kgs of 93% enriched uranium metal to Mitsubishi Atomic Power Industries, Inc.

The material covered by this application is intended for end use as fuel for a Japan Atomic Energy Research Institute Reactor and, therefore, the end use statement was originated by JAERI rather than Mitsubishi Atomic Power Industries to whom we, Gulf United, are shipping.

This procedure of end use statements is very confusing to the Japanese and I hope this application can be processed as it stands.

Our shipping schedule is for the end of September, 1973. If problems do arise, please call me.

Very truly yours,

GULF UNITED NUCLEAR FUELS CORPORATION
