PH/RCM/74/06

U.S. Atomic Energy Commission
Agreements and Exports Branch
Norfolk Avenue
Bethesda, Maryland, 20014

Attention: Gene Blanc, Chief

Reference: Application for License to Export
Dated 2/8/74 7141-3

Gentlemen:

The referenced application was mailed February 8, 1974 with the End Use Statement attached in the form of a typed telegram, which was received by telephone. The original letter containing the End Use, which was delayed in the mail between AECL and Gulf Nuclear, is now attached with this letter.

I hope this did not inconvenience you, but I did not want to delay past February 8, 1974 in the mailing of the application to your office.

Very truly yours,

GULF NUCLEAR FUELS COMPANY

Robert C. Miller
Supervisor, Production Control

Enclosure

Telegram phoned to Hematite, 2/8/74, 4:10 P. M.

From: Chalk River, Ontario, Canada

I understand that you will be shipping 1344 grams of 93.3 weight per cent enriched uranium in the form of UO_2 to Eldorado Nuclear Limited, Port Hope, Ontario. This is to certify that the above material will be used by AECL for experimental fuel in Chalk River Nuclear Laboratories, Chalk River, Ontario.

/wt

Signed/J. W. Carr
