(NOTE: This will be used as the
Documents Title in ADAMS)

Summary:

On 8/31, I attempted to contact Frans Wackers, M.D. and was told that he would be on vacation for an additional two weeks. I contacted Ray Carlson, the consultant, who informed me that he would be out of the office until next week and that he would have Agnes Barlow contact me.

On 9/1, Ms. Barlow called me and wanted to know what additional information I needed. I asked her if there were any other NRC licensees occupying the same space as Yale Cardiology at the Shoreline. She replied that there were not. I then informed her that there was insufficient information for me to list Barry Zaret, M.D. or Albert Sinusas, M.D. as authorized users. The certificate from the Certification Council for Nuclear Cardiology is not recognized by the NRC as an approved board and the letter is to the Certification Board of Nuclear Cardiology from the licensee attesting to the qualifications of the physicians. What is needed is a letter from the CBNC to the licensee accepting the information provided by the licensee, a certificate from the CBNC, or a letter from the RSO of Yale New Haven Hospital indicating that the physicians are permitted to perform studies authorized under 10 CFR 35.100 and 200 under its broad scope license. I also informed Ms. Barlow that I would be issuing the license and the licensee could request an amendment to the license should they want to add the physicians to the license when they have the appropriate information.

Action Required: Place in ADAMS/Issue license.
