Ewan,
A public meeting has been scheduled for September 29. An email will follow (should be sent today) with more details. The comment period closes on October 24. I will discuss your request with my management.

Yawar, Matt, Linda,

I have today received the hardcopy of the DEIS. It's a pretty hefty tome.

Cover - Ch 2: 130 pp
Ch 3: 80 pp
Ch 4 - 10: 162 pp
App a - i: 179 pp
---
471 pp

At just shy of 500 pages, I believe it will take interested members of the public, in their spare time, quite a while to digest. To critique it in any depth requires following up the numerous references too.

Moreover, in our situation, we are likely to have to respond in some depth when the ASLB panel rules on our contentions later this month.

For these reasons, I trust you will allow the community ample time to respond. As for scheduling public meetings and written response deadlines, I would suggest that no less than 60 days would be reasonable.

Respectfully,

-e
