DOCKET: 70-36
LICENSEE: Combustion Engineering, Inc. (CE)
Hematite, MO
SUBJECT: SAFETY EVALUATION REPORT: APPLICATION DATED OCTOBER 24, 1994,
SCHEDULE OF THE STANDBY TRUST AGREEMENT

Background

By amendment application dated October 24, 1994, CE requested that the dates of July 19, 1990, and July 29, 1994, be incorporated into Part I of the license to reflect the revised Schedule A of the Standby Trust Agreement associated with the Hematite Facility Decommissioning Funding Plan (Plan).

Discussion

By letter dated July 19, 1990, CE provided the financial assurance for decommissioning and by letter dated July 29, 1994, provided a revised Schedule A to the Standby Trust Agreement for the financial assurance for the Decommissioning Funding Plan. Since the Plan, including the Schedule A, was approved in NRC letters dated June 27 and November 3, 1994, CE's request is acceptable.

Environmental Review

Since the changes are administrative, the staff has determined that the proposed changes do not adversely affect the public health and safety or the environment. Therefore, in accordance with 10 CFR 51.22(c)(11), neither an environmental assessment nor an environmental impact statement is warranted for this action.

Conclusion

The staff recommends approval of the amendment application.

The Region III staff has no objection to this licensing action.
