UNITED STATES NUCLEAR REGULATORY COMMISSION

NUCLEAR MANAGEMENT COMPANY

DUANE ARNOLD ENERGY CENTER

DOCKET NO. 50-331

NOTICE OF CONSIDERATION OF APPROVAL OF TRANSFER OF FACILITY OPERATING
LICENSE AND OPPORTUNITY FOR A HEARING

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the transfer of Facility Operating License No. DPR-49 for the Duane Arnold Energy Center (DAEC) to the extent currently held by Interstate Power and Light Company (IPL) as owner, and Nuclear Management Company, LLC (NMC) as licensed operator of DAEC. The transfer would be to FPL Energy Duane Arnold, LLC (FPLE Duane Arnold). The Commission is also considering amending the license for administrative purposes to reflect the proposed transfer.

According to an application for approval filed by DAEC, FPLE Duane Arnold an indirect, wholly-owned subsidiary of FPL Group, Inc., would assume title to IPL's 70 percent ownership of the facility following approval of the proposed license transfer, and would be responsible for the operation, maintenance, and eventual decommissioning of DAEC. FPLE Duane Arnold will also take title to the general license for the independent spent fuel storage installation. No physical changes to the DAEC facility or operational changes are being proposed in the application.

The proposed amendment would replace references to IPL and NMC in the license with references to FPLE Duane Arnold, to reflect the proposed transfer.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give

its consent in writing. The Commission will approve an application for the transfer of a license, if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

As provided in 10 CFR 2.1315, unless otherwise determined by the Commission with regard to a specific application, the Commission has determined that any amendment to the license of a utilization facility which does no more than conform the license to reflect the transfer action involves no significant hazards consideration. No contrary determination has been made with respect to this specific license amendment application. In light of the generic determination reflected in 10 CFR 2.1315, no public comments with respect to significant hazards considerations are being solicited, notwithstanding the general comment procedures contained in 10 CFR 50.91.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

Within 20 days from the date of publication of this notice, any person whose interest may be affected by the Commission's action on the application may request a hearing and, if not the applicant, may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice set forth in Subpart C "Rules of General Applicability: Hearing Requests, Petitions to Intervene, Availability of Documents, Selection of Specific Hearing Procedures, Presiding Officer Powers, and General Hearing Management for NRC Adjudicatory Hearings," of 10 CFR Part 2. In particular, such requests

and petitions must comply with the requirements set forth in 10 CFR 2.309. Untimely requests and petitions may be denied, as provided in 10 CFR 2.309(c)(1), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.309(c)(1)(i)-(viii).

Requests for a hearing and petitions for leave to intervene should be served upon Robert E. Helfrich, Senior Attorney, FPL Energy, LLC, 700 Universe Blvd. Juno Beach, Florida 33408, 561-304-5288, Facsimile: 561-691-7135, Email: robert_helfrich@fpl.com, Sam Behrends, LeBoeuf, Lamb, Greene & MacRae, 1875 Connecticut Ave., NW, Suite 1200 Washington, DC 20009, 202-986-8108, Facsimile: 202-986-8102, Email: Sbehrend@llgm.com, Kent M. The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held and designating the Presiding Officer. A notice granting a hearing will be published in the FEDERAL REGISTER and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, within 30 days from the date of publication of this notice, persons may submit written comments regarding the license transfer application, as provided for in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this FEDERAL REGISTER notice.
