not in file

Attention: Mr. L. J. Swallow, Manager
Nuclear and Industrial Safety

Gentlemen:

In accordance with your application dated November 26, 1969, and pursuant to Title 10, Code of Federal Regulations, Part 70, Special Nuclear Material License No. SNM-33 is hereby amended to authorize (1) installation of the product screen hood (C3-15) and inprocess storage rack, and (2) use of pellet plant furnaces for sintering Item Plant material under conditions and controls which protect against commingling Item material with non-Item material. The conditions and controls described in Section 8.24.4.17 (dated November 26, 1969) appear to accomplish this objective if effectively implemented.

All other conditions of this license shall remain the same.

As Mr. Layfield informed Mr. Swallow, the information submitted for this amendment or subsequent amendments filed prior to renewal of License No. SNM-33 should be appropriately incorporated into your application for renewal of License No. SNM-33.
