

Docket No. 70-036

release

R

COMBUSTION ENGINEERING

February 2, 1988

Mr. Richard E. Cunningham, Director
Division of Fuel Cycle, Medical,
Academic and Commercial Use Safety
Attn: Document Control Desk
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Combustion Engineering Management Changes

Dear Mr. Cunningham:

The purpose of this letter is to officially inform the Nuclear Regulatory Commission of changes in Combustion Engineering's organization for matters relating to our nuclear fuel activities.

I have recently replaced Mr. Harold V. Lichtenberger as Combustion Engineering's Vice President of Nuclear Fuel. I have thus assumed the role of "licensee recipient" for all nuclear fuel related activities at Combustion Engineering. In effecting this change, and in order to streamline all Nuclear Regulatory Commission communications through a senior management individual, I have requested that Mr. A. E. Scherer, our Director of Nuclear Licensing, assume the additional responsibility for nuclear fuel related communications with the Nuclear Regulatory Commission. Mr. Scherer and I shall thus be included among those individuals authorized to make related Licensee commitments on behalf of Combustion Engineering, Inc.

To assist us in this changeover, we request that you copy both Mr. Scherer and Mr. Charles B. Brinkman, our Bethesda-based Licensing Manager, (addresses attached) on all nuclear fuel related correspondence. If I can be of any additional assistance in this matter, please feel free to call or Mr. A. E. Scherer at (203) 285-5200.

Very truly yours,

COMBUSTION ENGINEERING, INC.

P. L. McGill
P. L. McGill
Vice President
Nuclear Fuel
