7 SEPTEMBER 2005

FRIENDS OF LAKE ANNA, VA.

REQUESTS HELP

FROM THE

**VIRGINIA DEPARTMENT OF
ENVIRONMENTAL QUALITY**

ATTN; MS. ELLIE IRONS

AND

U.S. NUCLEAR REGULATORY COMMISSION

ATTN: MR JACK CUSHING

7 September 2005

Ms. Ellie Irons, Environmental Impact Review Program Manager
Virginia Department of Environmental Quality
629 East Main Street, Richmond, Va. 23219 (Hand Delivered)

Mr. Jack Cushing,
Environmental Project Manager for North Anna ESP Site Application
U.S. Nuclear Regulatory Commission, Washington D.C. 20555

- Reference:
- (1) Ruth Estates Property Owners Association (REPOA) letter dated 17 August 2005 to VDEQ (Environmental Impact Review Program) requesting help re concerns about the proposed expansion of the North Anna nuclear power plant, which affects Lake Anna.
 - (2) REPOA letter dated 18 August 2005 to NRC (Environmental Project Manager for North Anna ESP site Application) requesting help re concerns about the proposed expansion of the North Anna nuclear power plant, which affects Lake Anna.
 - (3) REPOA & Friends of Lake Anna letter dated 31 August to VDEQ & NRC identifying a Friends of Lake Anna group has been founded on 22 August 2005 to gather support for the concerns identified in References 1 & 2.

Dear Ms. Irons and Mr. Cushing,

Attached are petitions, emails, letters and a Board of Directors Resolution supporting the concerns identified in the above references. The various attachments are from individuals, civic and homeowner associations that **represent approximately 1,850 persons who share similar concerns with the Dominion Resources proposal to expand the North Anna site and use Lake Anna as a water coolant.** The concerns relate primarily with water temperature, water flow, water levels and associated impacts; together with public health, protected species, fish and wildlife. In addition, another major concern that is not identified in the above references, is the apparent inadequate water supply in the 342 sq. mile watershed, as identified by Virginia's Department of Water Resources) that feeds Lake Anna to support a 3rd nuclear reactor.

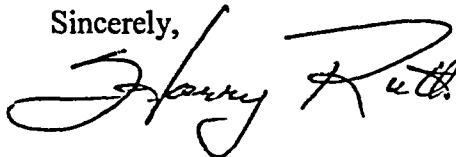

I would like to emphasize that the Lake Anna Friends group is not anti-nuclear and does not have a "not in my backyard sentiment". Our research indicates that other nuclear alternatives are available for a 3rd reactor at the North Anna site which are currently used in Europe, such as the air-cooled reactor that Dominion proposes for the 4th reactor.

We are hopeful that the tremendous support received, within a short 16 day time period since our group was formed on 22 August, is evidenced by the attached petitions, emails, letters and resolution that represents approximately 1,850 persons. These various communications demonstrates the public's major concerns with Dominion's current proposal. *We request that your respective offices, together with the Virginia State Water Control Board and the Virginia counties of Louisa, Spotsylvania, and Orange do not issue any permits to Dominion Resources until they have negated all the concerns identified in the referenced memorandum and this letter.* It is our hope that Dominion will find the necessary technical means to negate each of the concerns.

FRIENDS OF LAKE ANNA

We simply want to protect the entire warm/(WHTF side of 3,400 acres and cool side 9,600 acres) for a total of 13,000 acre Lake Anna, so future generations can benefit from the many recreational activities currently available. In addition, we want to ensure that using Lake Anna water as a coolant for a 3rd nuclear reactor does not drain down the entire 342 square mile watershed that feeds the lake and will cause increased droughts, etc and affect many thousands of residents throughout the Commonwealth of Virginia, when other types of nuclear reactors are currently available. Also we want to ensure that Dominion Resources continues to be a good steward of the lake and does not inadvertently create some major health problems for the 500,000 plus people who use the lake on an annual basis. Please do not hesitate to call if you have any questions. We will look forward to your response.

Sincerely,

Harry Ruth

For the Friends of Lake Anna and the
Board of Directors Ruth Estates Property Owners Association

C/O 230 Heather Drive, Bumpass, Va. 23024
Phone 540-872-3632

Attachment: As stated

FRIENDS OF LAKE ANNA, VIRGINIA

**U.S. NUCLEAR REGULATORY COMMISSION
ATTENTION Mr. Jack Cushing**

RE: NORTH ANNA ESP SITE APPLICATION-

FRIENDS OF LAKE ANNA, VIRGINIA

7 September 2005

Attachment to: Friends of Lake Anna, Virginia letter to:

Ms. Ellie Irons, Environmental Impact Review Program Manager
Virginia Department of Environmental Quality
629 East Main Street, Richmond, Va. 23219 (Hand Delivered)

Mr. Jack Cushing,
Environmental Project Manager for North Anna ESP Site Application
U.S. Nuclear Regulatory Commission, Washington D.C. 20555

1. The attachments identify those that have concerns with the North Anna Plant expansion as currently proposed by Dominion Resources using Lake Anna water are organized as follows:

Tab 1 – Signature Petitions

Tab 2 – Email Petitions

Tab 3 – Supporting Letters

Tab 4 – Lake Anna Civic Association (LACA) Board of Directors Resolution

2. The above data was collected in less than 16 days by the Friends of Lake Anna starting on 22 August 2005. The petitions were solicited by various means by a group that numbered 9 on 22 August and grew to over 50 today. The letters are from both individuals and Home Owner Association officers who represented their association members. In addition, the Board of Directors of the Lake Anna Civic Association which has over 750 members passed a resolution supporting the concerns

3. Approximately 1,850 persons generally support the concerns identified in the 17 Aug 2005 letter to the Va Dept of Environmental Quality and the 18 Aug 2005 letter to the Nuclear Regulatory Commission, plus the 31 August 2005 letter to both organizations.

4. The Friends of Lake Anna, and the individuals whose names are attached to the above communications expect that our concerns will be addressed and resolved in a timely manner in such a way that satisfies the stated issues.

5. We thank all in advance who participate in resolving the concerns identified in the covering letters dated 17 Aug, 18 Aug, and the covering letter to this attachment.

Harry Ruth

Friends of Lake Anna.

C/O 230 Heather Dr., Bumpass, Va. 23024

SIGNATURE PETITIONS

PETITION TO REQUEST HELP IN ADDRESSING ALL HEALTH AND WATER FLOW INCREASE CONCERNS IDENTIFIED IN 17 Aug 05 LETTER RE ADDING A 3RD & 4TH NUCLEAR REACTOR AT THE NORTH ANNA POWER PLANT LOCATED IN LOUISA, VIRGINIA

Date: 16 Sept 05

To: Virginia Dept. of Environmental Quality
U.S. Federal Nuclear Regulatory Commission
Louisa County, Va. Board of Supervisors

Virginia State Water Control Board
Spotsylvania County, Va. Board of Supervisors
Orange County, Va. Board of Supervisors.

SUBJECT: CONCERNS RE ADDING A 3RD AND 4TH REACTOR TO THE NORTH ANNA PLANT

Dear Sirs:

We, the undersigned persons who own property at Lake Anna, Virginia or use the lake as a recreational facility petition your office to not issue any permits to Dominion Resources until they have negated all the (1) Increase in water temperature's up to 113F and (2) Increase in water flow rate concerns identified in the 17 August 2005 letter from Ruth Estates Property Owners Association to the Virginia Department of Environmental Quality. It is our hope that Dominion will find the necessary technical means to negate each of the concerns. We also agree with all the concerns and other points made in the letter.

SUBJECT: CONCERNS RE ADDING A 3RD AND 4TH REACTOR TO THE NORTH ANNA PLANT

Dear Sirs:

We, the undersigned persons who own property at Lake Anna, Virginia or use the lake as a recreational facility petition your office to not issue any permits to Dominion Resources until they have negated all the (1) Increase in water temperature's up to 113F and (2) Increase in water flow rate concerns identified in the 17 August 2005 letter from Ruth Estates Property Owners Association to the Virginia Department of Environmental Quality. It is our hope that Dominion will find the necessary technical means to negate each of the concerns. We also agree with all the concerns and other points made in the letter.

PETITION TO REQUEST HELP IN ADDRESSING ALL HEALTH AND WATER FLOW INCREASE CONCERNS IDENTIFIED IN 17 Aug 05 LETTER REFERENCING ADDING A 3rd & 4th NUCLEAR REACTOR AT THE NORTH ANNA POWER PLANT LOCATED IN LOUISA, VA

Date: 4 Sep 05

TO: Virginia Department of Environmental Quality
 Virginia State Water Control Board
 U.S. Federal Nuclear Regulatory Commission
 Louisa County, Va. Board of Supervisors
 Spotsylvania County, Va. Board of Supervisors
 Orange County Va., Board of Supervisors

SUBJECT: CONCERNS RE ADDING A 3RD AND 4th REACTOR TO THE NORTH ANNA PLANT

Dear Sirs:

We, the undersigned persons who own property at Lake Anna, Virginia or use the lake as a recreational facility petition your office to not issue any permits to Dominion Resources until they have negated all the (1) Increase in water temperature's up to 113F and (2) Increase in water flow rate concerns identified in the 17 August 2005 letter from Ruth Estates Property Owners Association to the Virginia Department of Environmental Quality. It is our hope that Dominion will find the necessary technical means to negate each of the concerns. We also agree with all the concerns and other points made in the letter.

PETITION TO REQUEST HELP IN ADDRESSING ALL HEALTH AND WATER FLOW INCREASE CONCERNS IDENTIFIED IN 17 Aug 05 LETTER REFERENCING ADDING A 3RD & 4TH NUCLEAR REACTOR AT THE NORTH ANNA POWER PLANT LOCATED IN LOUISA, VA

Date: 4 Sept 05

TO: Virginia Department of Environmental Quality
 Virginia State Water Control Board
 U.S. Federal Nuclear Regulatory Commission
 Louisa County, Va. Board of Supervisors
 Spotsylvania County, Va. Board of Supervisors
 Orange County Va., Board of Supervisors

SUBJECT: CONCERNS RE ADDING A 3RD AND 4th REACTOR TO THE NORTH ANNA PLANT

Dear Sirs:

We, the undersigned persons who own property at Lake Anna, Virginia or use the lake as a recreational facility petition your office to not issue any permits to Dominion Resources until they have negated all the (1) Increase in water temperature's up to 113F and (2) Increase in water flow rate concerns identified in the 17 August 2005 letter from Ruth Estates Property Owners Association to the Virginia Department of Environmental Quality. It is our hope that Dominion will find the necessary technical means to negate each of the concerns. We also agree with all the concerns and other points made in the letter.

Comments: We are highly concerned about the water levels, heat and other health impacts that Reactor #3 would have on the lake and the residents that enjoy its pleasures. We urge you that Reactor #3 be air cooled just as Reactor #1.

Comments:

I reiterate that I am not against nuclear power plant. In my view, Dominion has been a good neighbor and responsive to citizen concerns. I suggest that Dominion agree to set up water temperature monitoring sites at various points on the lake and place large signs along major roads displaying the those water temperatures and levels. Signs can be erected now as a way of setting prudent standards for future water temperature and levels providing clear, objective agreements between Dominion and Lake Anna residents.

Comments: We strongly support the development of nuclear power as an environmentally benign source of needed electric power. However, we do not believe that they need to have adverse affects on Lake Anna in the raising of the water temperature and flows as currently planned. Technology is available to cool the water from the plant without adversely impacting the fish, wildlife and humans in and around the lake.

Comments:

All of the people who supported the creation of this lake and the building of the plant will be betrayed – and their health severely compromised - by even a third plant, and yet you consider allowing a fourth? Aren't you supposed to be in the business of protecting the public welfare? OK, forget that for a moment and consider the tourism and real-estate dollars that will be lost to you if the lake becomes a 13,000 acre hot tub. Most of the fish will die. Some people will die. What will that do to your "vision" for the region? Save yourselves by saving the Lake.

mk

We believe Dominion should not add any new reactors. The water is so warm now you can't enjoy it and we are terribly concerned about what this will do to the wildlife in the area.

Comments: We have swam in the water when it was over 100, its seems obvious that it is unhealthy. Going ahead with another reactor would result in ruining a beautiful state resource. We need more Nuclear Reactors, but not all on one small lake.

Date: 08/31/2005 5:36:48 PM Eastern Standard Time
From: toadrana@earthlink.net
To: LAKEANNAFRIENDS@AOL.COM

We are not opposing continuation of the two existing , or even additional reactors. But changing the water level higher or lower is not acceptable. And any increase in water temperature is not acceptable. Both of these things will cause harm or damage to Lake Anna, the fish and wildlife, and all the people who use Lake Anna.

Subj: Lake Anna warming...
Date: 09/02/2005 8:43:00 AM Eastern Standard Time
From: dave@markfamily.com
To: LakeAnnaFriends@aol.com
CC: dsobsey@comcast.net, deneen_melander@ffhsj.com, nanfacemire@aol.com

<http://lakeannava.tripod.com/>

My wife and I just purchased a house in Blount Harbor on Lake Anna. This is the first I am hearing of Dominion plans to raise the temperature of the lake. This plan seems preposterous to me. Wouldn't warming the lake to such an extreme degree significantly alter the eco-system of the lake? Has there been any study done to predict the effects? Is there any oversight here?

I tried to send a letter via the button on the web site, but clicking on it only activated my browser's back button. I'm on a Mac. Have spoken with other Lake Anna people, they've told me they are having the same experience. Anything I can do here? Can you send me an email address at Dominion to which I can write? Do we know which federal/state/local agency has control over the lake? I'd like to write to them as well.

Thanks for your help with this...

Comments: We are landowners on the cold side of the lake in Valentine Woods (non-sub). We plan on building a vacation home on our property when we return from our overseas military duty assignment, and we are very concerned about what the proposed 3rd and 4th reactors will do to the water temperatures and levels. Please consider other alternatives to using Lake Anna water as a cooling source for any future reactors.

Please add the names below to your list of people living on the Lake who do not want higher water temperatures due to the installation of the 3rd Nuclear Reactor. We are not against additional reactors nor are we anti nuclear. We feel alternatives exist for Dominion Power to consider that do not affect the Lake Anna water temperatures or levels as the proposed Dominion plan will.

SUPPORTING LETTERS

**Both Waters Association, Inc.
P.O. Box 162
Bumpass, VA 23024**

Lake Anna Friends
P.O. Box 171
Bumpass, VA 23024

6 Sep 05

On behalf of the 145 lot owners in Both Waters Association, Inc, I support the concerns of your organization known as Lake Anna Friends. We, who own property at Lake Anna, Virginia and use the lake as a recreational facility, join the petitioning of the office of the Virginia Department of Environmental Quality.

We ask that office not issue any permits to Dominion Resources until they have negated and satisfied property owners' concerns on all the outstanding issues of: (1) Requested increase in outlet water temperature's up to 113°F and (2) Requested 60% increase in water flow rate. These concerns were identified in the 17 August 2005 letter from Ruth Estates Property Owners Association to the Virginia Department of Environmental Quality.

We are also very concerned about the possibility of an increase in water levels on the warm side and the decrease in water levels on the cold side, which will drastically affect the shoreline and have a negative impact on shore structures and property values.

It is our hope that Dominion will consider other available technologies and find the necessary technical means to negate each of the above concerns. We also agree with and support all of the concerns and other points made in the letter.

Robert C Richards
Both Waters Association
Board President

Date: 5 Sept 05

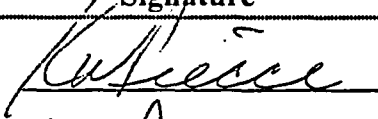

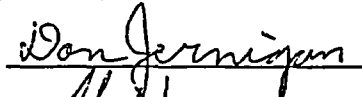

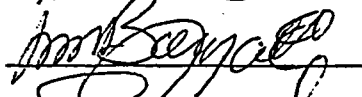

TO: Virginia Department of Environmental Quality
U.S. Federal Nuclear Regulatory Commission
Louisa County Board of Supervisors

C/O Harry Ruth; President, Ruth Estates Property Owners Association

SUBJECT: Potential for increased Lake Anna water temperatures

Dear DEQ, NRC, and Lake Anna Board of Supervisors representatives:

We, the Board of Directors for the Hickory Landing Community Association (HLCA), as representatives for the 130+ persons who comprise the families owning property on Lake Anna, Virginia, petition your office to ensure all environmental impact studies are executed to mitigate (1) Increase in water temperature's up to 113F and (2) Increase in water flow rate relating to the development on a 3rd and 4th reactor by Dominion Resources. Both these concerns were identified in the 17 August 2005 letter from Ruth Estates Property Owners Association to the Virginia Department of Environmental Quality. It is our desire that Dominion will find the necessary technical means to negate these concerns in order to preserve the environment in the condition in which it exist today. We also agree with all the concerns and other points made in the letter.

Re: Concerns adding a 3rd and 4th Reactor at the North Anna
Power Plant

Date: September 6, 2005

Our Association consists of 26 members who own property in Clearwater, Crystal Cove and Plum Tree Landing Subdivisions at Lake Anna. We are very concerned about the lack of State and Federal monitoring, water flow increases and current/possible water temperatures on the private side of Lake Anna. We agree that the matters mentioned in Harry Ruth's letter dated August 17, 2005 to the VA Dept. of Environmental Quality should be addressed before a permit is issued.

C O'melia

September 5, 2005

To: Harry Ruth
Friends of Lake Anna
From: Gary Bullis (President Rockland Creek Estates HOA)

The purpose of this letter is to note that I and others within Rockland Creek Estates share your concerns regarding water levels and increasing water temperatures resulting from adding a third and fourth nuclear reactor at the North Anna Power Plant located in Louisa, VA. Rockland Creek Estates is a water front community made up of one Hundred and sixty one (161) properties.

I should note for the record that I am not opposed to adding a nuclear reactor but recommend that technical alternatives be considered to mitigate the impact on the Lake water levels and increasing water temperatures above healthy levels.

Gary Bullis

August 31, 2005

To Whom It May Concern:

We wish to be included with the concerned citizens requesting the Virginia Department of Environmental quality, to review the possible safety and health concerns, as expressed in the letter to Ms. Irons, dated August 17th, 2005.

Bumpass VA 23024

To Whom it may concern,
We use Lake Anna for frequent recreation for our friends and family; fishing, swimming and boating. We are also very concerned about how an increase in water temp. will affect the environmental health of the lake. Please add both our names to your petition and let's get some of these questions answered.
Thank you for your concern for our beautiful lake.

Sincerely
Carole Jenkins

LAKE ANNA CIVIC ASSOCIATION (LACA)

Board of Directors
Resolution

LAKE ANNA CIVIC ASSOCIATION (LACA)

P.O. Box 217, Lake Anna, Virginia 23117-0217

Website - www.LakeAnnaVirginia.org

Email - LACA@LakeAnnaVirginia.org

RESOLUTION OF THE LACA BOARD OF DIRECTORS

September 1, 2005

MOTION: Bob Kepley

SECOND: Wayne Jones

WHEREAS, Dominion Power has requested an early site permit to build two additional nuclear reactors at the North Anna nuclear power plant, and

WHEREAS, Dominion proposes to cool the first of the two new reactors using water from Lake Anna in a similar manner as used for the two existing reactors, and

WHEREAS, the operation of this third reactor could increase the flow of lake water through the plant by as much as 60 percent, and

WHEREAS, the increased temperature and greatly increased flow of the water exiting the plant could have serious adverse effects on Lake Anna, both the waste heat treatment facility and the main lake, and

WHEREAS, these adverse effects could include raising the water temperature in some locations at some times to the point that it would be dangerous for humans and animals to be in the water, and

WHEREAS, these adverse effects could include raising the water temperature generally on the waste heat treatment facility and on parts of the lake, making it unsuitable for popular recreational activities during the time of the year when those activities are most popular, and

WHEREAS, these adverse effects could include permanent changes in water levels in parts of Lake Anna that may result in damage to docks, seawalls, and other waterside facilities, and

WHEREAS, these adverse effects could include other problems stemming from the increased water flow, and

WHEREAS, Mr. Harry Ruth, a member of the Lake Anna Civic Association, has undertaken to get regulatory limits placed on Dominion's permits to expand the North Anna nuclear power plant, including sending a letter on August 17, 2005, to the Virginia Department of Environmental Quality,

NOW THEREFOR BE IT RESOLVED that the Board of Directors of the Lake Anna Civic Association:

1. Agrees that increased water temperatures could make parts of Lake Anna dangerous for humans and animals at certain times and make parts of Lake Anna unusable for popular recreational activities at times when these activities are most popular.
2. Agrees that permanent changes in water levels on all or part of Lake Anna could cause substantial damage to waterside facilities and cost property owners millions of dollars.
3. Believes that the other possible effects of increased water flows through the plant (e.g., increased erosion, turbulence) should be thoroughly investigated.
4. Believes that our concerns would be satisfied by appropriate regulatory limits regarding lake water temperatures, levels, and possibly flows through the plant being placed on Dominion's permits for expanding the North Anna nuclear power plant. These limits should provide that the plant's expansion should not be allowed to increase water temperatures (and should never exceed 104 degrees under any circumstances) or to significantly and/or permanently change current overall water levels.

BE IT FURTHER RESOLVED THE LACA BOARD OF DIRECTORS DIRECTS THE PRESIDENT TO FORTHWITH NOTIFY THE LACA MEMBERSHIP AND THE VIRGINIA DEPARTMENT OF ENVIRONMENTAL QUALITY, VIRGINIA STATE WATER CONTROL BOARD, U.S FEDERAL NUCLEAR REGULATORY COMMISSION, AND THE LOUISA, SPOTSYLVANIA, AND ORANGE COUNTY BOARD OF SUPERVISORS OF THIS RESOLUTION.

AYES: 6 NAYES: 0 ABSTAIN: 0 ABSENT: 3'

Note: The Lake Anna Civic Association has 750 plus members as of 1 Sep 2005
