ALLEGATION MATERIAL
PLEASE TREAT SENSITIVELY

Scott,

Attached is the status letter to which I referred. Two of the concerns are not closed (in RI-2002-A-0132), as we determined after a lot of internal gyration last week, that they will need further review (via inspection). Jim Beall informed me that he wouldn't mind taking a look at the letter before it went out (to see if McGaffigan wanted to add anything). I am processing through you so I don't make any chain-of-command boo-boos. Need feedback ASAP. Sorry for the rush and thanks for your help.

If any info seems missing in the attachment, you may need to save it to a WP file, then print it.
