Subject: Re: Draft HC NLO violation

Appended is the revised violation with the procedure references. The second violation is strongly supported, while the first violation may actually need the actual cover sheet from the written exam to solidify the reference. I would presume you could obtain that during your investigation.

Rich/Scott - when this issue is repanelled it would be helpful if we have the actual licensee procedure number identified in the draft NOV as "procedure xyz." Thanks, Jeff

looks good.

>>> Scott Barber 10/30/03 12:02PM >>>
I have completed the "first draft" of the proposed violation for the alleged wrongdoing at Hope Creek. This is needed by OI to begin investigation of an allegation (2003-0138) discussed during an ad-hoc ARB today. I am forwarding it for your review and comment.

Our current proposal is to treat this separately from the on-going Salem/HC SCWE review.
