Subject: SSW for HC SSDI

An internal meeting has been scheduled at 3:00 p.m., January 15, 2003, in the DRP conference room to review potential staff suspected wrongdoing issues that may have occurred during the Hope Creek (HC) Safety System Design Inspection (SSDI) and during a subsequent Notification of Enforcement Discretion (NOED). Addressees of this e-mail are requested to attend to facilitate this discussion.

DRS has prepared a timeline that delineates a number of the key issues. When it becomes available electronically, I will forward it to you. I will also obtain a conference number to facilitate resident inspector and NRR participation. If I have left anyone off the list that you think needs to attend, please forward this information to them.
