1. On 2/10/98 the alleger was interviewed by OI. DRP reviewed the transcript and found no new technical issues. However, I need to know if DRS agrees. Can someone in the CMMEB group please review this transcript and provide an E-mail to me and Dave Vito with the results of your review?

2. We received the licensee's response dated March 6, 1998 to our referral about VT-2. I need to know if DRP and DRS thinks the response is adequate to close the technical concerns. Please e-mail Dave and me with your answer. If acceptable, I will draft a status letter closing the technical concerns.

I need responses by 4/15/98.

Thank You.
Kathy
