Sharon L. Long
Radiation Safety Officer
Sharon L. Long Consulting
1296 Russell Drive
Bolivar, OH 44612

Dear Ms. Long:

Enclosed is Amendment No. 01 renewing your NRC Material License No. 34-26655-02 in accordance with your request.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note the following concerning your renewed NRC License:

1. License Condition No. 17 was modified in accordance with NRC Regulatory Issues Summary (RIS) 2004-17. This RIS removes the requirement to hold for decay-in-storage for 10 half lives byproduct material with half lives of less than 120 days. Please read this condition carefully. This RIS may be found on the NRC website at www.nrc.gov.
2. License Condition No. 19 was added to your NRC License which requires you to develop, maintain and implement procedures to obtain agreements with your clients outlining the responsibilities of both the customer and service provider. This requirement comes from NUREG 1556, Vol. 18. which was not addressed in your renewal application or resubmittal.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

S. L. Long

2

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

Sincerely,

James R. Mullauer, M.H.S.
Health Physicist
