DRP & DRS Inspectors -

Branch 3 has an urgent need to complete the extensive task of reviewing transcripts regarding the SCWE review at Salem and Hope Creek. We need your help and with just a day's effort you can contribute to the review in a meaningful way. If you foresee the availability to spend a day or more reviewing transcripts within the next week or so, please consult with your supervisor and let us (Glenn, Scott Barber, or Ted Wingfield) know.

The job will entail a brief pre-job orientation and then you can read through an individual's transcript of his/her discussion with an OI investigator of their recollections, perspectives, and views of incidents at Salem and Hope Creek. A transcript review can be done in approximately 5 hours, depending on its length, and they can be very interesting.
