Subject: Interview missed so I'm heading back to the Region I office

Eileen just got back to me ... the interview is over ... they held it in the training center. She said she had tried to get me during a break but couldn't figure out the PSEG phone system vs. the full number I sent to her pager.

I'll be leaving here shortly and grabbing lunch on the way ... should be in the office by 2 or 2:30.
