Subject: Fwd: Summary of PSEG site-wide Meeting on NRC letter

FYI

My conversations with Ferland and Anderson yesterday were reasonably positive. Roy actually seemed to say this will help him with what he knows he needs to do onsite.

Rollout of the letter on site today by Chris Bakken/John Carlin was also in the right direction.

So far there has been no external awareness of the letter....that will likely come soon.

Lastly, we have been told that the group of employees who were intending to go to "60 Minutes" has decided they don't need, for now, to do that. The word is that they do, however, want to talk to NRC. We will pursue this through our ongoing special review/allegation process.
