MEMORANDUM TO: Daniel Collins, Chief, Section 2  
Project Directorate IV  
Division of Licensing Project Management  
Office of Nuclear Reactor Regulation  
/RA/  
FROM: Drew Holland, Project Manager, Section 1  
Project Directorate IV  
Division of Licensing Project Management  
Office of Nuclear Reactor Regulation  
SUBJECT: SUMMARY OF AUGUST 17, 2005, MEETING WITH THE BABCOCK  
AND WILCOX OWNERS GROUP (B&WOG) TO DISCUSS PLANS FOR  
THE REACTOR VESSEL INTEGRITY PROGRAM (TAC NO. MC5665)

On August 17, 2005, an open, Category 2 meeting was held between the U.S. Nuclear Regulatory Commission (NRC) staff and representatives of the B&WOG at NRC Headquarters. The purpose of the meeting was to hold a discussion on the reactor vessel integrity program.

The B&WOG provided an overview of the program, which included background and aspects that were dealt with in NRC-approved topical reports BAW-2308, "Initial RTndt of Linde 80 Weld Materials" and BAW-1543, "Master Integrated Reactor Vessel Surveillance Program," Revision 4, Supplement 5. The purpose of the Master Integrated Reactor Vessel Program was discussed, followed by the Linde 80 weld matrix. A variety of other related topics were then discussed, including the B&WOG transition into the Westinghouse Owners Group. At this point, the meeting was concluded with no regulatory decisions having been made. The NRC staff thanked the B&WOG for the presentation.

A list of meeting attendees is attached. The non-proprietary presentation slides are available in ADAMS under Accession Number ML052560447.
