Room 04E21

Reference: **NRC Export License No. XSOU8787**

Dear Sir:

Urenco, Inc., is licensee of the above referenced export license for the export of Natural Uranium from the United States, and wishes to amend such license. I understand the cost for such amendment is \$2,400, and have enclosed a check in that amount. The changes to the referenced license are as follows:

Extend the term of the license from December 31, 2005 to December 31, 2008.

Increase the quantity of Kilograms of Natural uranium in the form of uranium [REDACTED] from [REDACTED] to [REDACTED].

Please note one address change of the parties listed under ULTIMATE CONSIGNEE IN FOREIGN COUNTRY, which is referenced as "Page 2" of our license. I have enclosed a revised Page 2 with this letter.

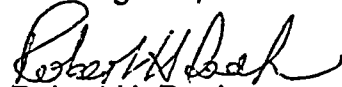

Also, please note that the company name of the party listed under "OTHER PARTIES TO EXPORT, AlliedSignal, Inc., is replaced by Honeywell International, Inc., as we advised you on October 5, 2001. The address remains the same.

There are no other changes to the referenced export license.

Urenco has discussed the revised quantity and license term with the European Supply Agency.

If you should have any questions about the requested license amendment, please call me at (202) 337-6644.

Kind regards,

Robert H. Deak  
Marketing Manager
