Dear Mr. Tony Gaines:

This letter is to document my experience with fixed, sealed source gauges as per our conversation today. I have been in the electronics field for approximately 30 years, coming into contact with several different radioactive instruments. I started working here at Sanjel USA on January 17, 2005 and have worked with these gauges either with direct supervision of Frank Coelho or Todd Richer, approximately 8 months. I have worked with portable gauges in the past with Brown & Root, and several surveying/ road construction firms. Sanjel USA is sending me to Thermo Electron Corp on November 17<sup>th</sup> for a technical course on these gauges. I hope this letter satisfies your request. Thank you for your assistance.

Michael E. Moore  
Radiation Safety Officer
