Dear Sir:

Subject: VIRGIL C. SUMMER NUCLEAR STATION
DOCKET NO. 50-395
OPERATING LICENSE NO. NPF-12
RESPONSE TO NRC REQUEST FOR ADDITIONAL INFORMATION ON
MITIGATION STRATEGIES

Reference: Submittal from NRC, Mr. Robert Gramm to SCE&G Mr. Ron Clary dated August 9, 2005.

On August 9, 2005, South Carolina Electric & Gas (SCE&G) received the referenced request for additional information relating to our original response to a letter from J.E. Dyer, Director, Office of Nuclear Reactor Regulation, dated February 25, 2005, *NRC Staff Guidance for Use in Achieving Satisfactory Compliance with February 25, 2002, Order Section B.5.b.* ("NRC B.5.b. Guidance"). As requested in the reference letter, a telecon was held between the NRC and SCE&G on August 17, 2005 to discuss the questions contained in that submittal. As a result of that conversation, the NRC staff requested that SCE&G formally submit the responses to that request for additional information. The following attachment provides the SCE&G response to that request.

Should you have any further questions, please call Mr. Ronald Clary at (803) 345-4757.

Very truly yours,

Jeffery B. Archie
