Washington, DC 20555-0001

Rules and Directives Bran Nuclear Regulatory Commission:

The information contained in the Entergy's Draft Environmental Impact Statement (EIS), is incomplete and insufficient.

In addition Entergy doesn't explain what it will do with all the nuclear waste in the long term, nor is the company required to address security issues. *I understand that your rules do not require that but surely that's important information and you agency SHOULD require it and Entergy should provide that information.*

Sincerely,

Pierre Catala
