Subject: Proposed Rule for Work Hour limits

DOCKET NUMBER
PROPOSED RULE PR 26
(70FR50442)

Ms. Karas:

I am writing for general information on the proposed rule for work hour limits for nuclear power plant employees. While I understand the provisions of the proposed rule, I am unclear on the process itself regarding implementation of this rule. Specifically, if this rule were to be "accepted" for limiting working hours for nuclear plant employees, how soon could I (as a power plant worker) expect to see some changes with regard to the number of hours I am currently working?

Also, how does this process work? We in the industry have been hearing about changes to the number of hours we could work for quite some time, but haven't seen a change, except for an increase.

I'm sure you get hundreds of requests for information, most of them probably more coherent than this, but any light you could shed on this topic would be of great interest to me and several others, so any response would be greatly appreciated. Thank you in advance for your time and attention.

Respectfully,

Steven Schildhouse
