OYSTER CREEK NUCLEAR GENERATING STATION LICENSE RENEWAL APPLICATION (LRA) REQUEST FOR ADDITIONAL INFORMATION (RAI)

RAI 2.5.1.19-1

The Combustion Turbine Power Plant was determined to be in scope for the purpose of license renewal. Table 3.6.2.1.2 refers to Section 2.5.1.19 for the purpose of Aging Management Evaluation. The NRC staff needs additional information to evaluate the long lived passive components of the Combustion Turbine Power Plant and any aging management programs and aging management reviews related to those components. You should use the same format and depth that you used in the diesel generator section of your application.
