

Q#	1. LOK (F/H)	2. LOD (1-5)	3. Psychometric Flaws					4. Job Content Flaws				5. Other		6. U/E/S	7. Explanation	
			Stem Focus	Cues	T/F	Cred. Dist.	Partial	Job-Link	Minutia	#/units	Back-ward	Q=K/A	SRO Only			
1	H	3	X					X					X		U(S)	doesn't qualify as "modified" - must count as "Bank"; change "appropriate" to "required" in stem to ensure only one answer (o/w, D may be correct); doesn't test knowldg of the REASONS for EOP actions per KA; <i>(Replaced with NEW)</i>
2M	H	2	X										-		E(S)	Tpzzr is not Tst for 1900#; recommend changing to 1400# in pzzr and 20# in QT in order to really test something; <i>(replaced w/ MODIFIED)</i>
3B*	H	3											-		S(S)	<b>NRC-2002</b> ; <i>(Replaced with BANK; cannot count as "MODIFIED")</i>
4B	F	2											-		E(S)	NRC-2004; LOK is F vice H; <i>(replaced w/BANK)</i>
5	F	3	X				X	X					-		U(S)	A and C are too similar to be credible; B and D are the same - need to specify that order of actions is important; <i>(Replaced with NEW)</i>
6	F	3											X		U(S)	doesn't test knowledge of REASONS for isolating letdown per KA; <i>(replaced w/NEW)</i>
7	H	3											-		S(S)	<i>(replaced w/NEW)</i>
8B	F	3											-		S(S)	<i>(replaced w/BANK;)</i>
9B	H	3											-		S(S)	<b>plant-specific priority for item &lt;2.5 IR</b> ; <i>(replaced w/BANK)</i>

Instructions

[Refer to Section D of ES-401 and Appendix B for additional information regarding each of the following concepts.]

- Enter the level of knowledge (LOK) of each question as either (F)undamental or (H)igher cognitive level.
- Enter the level of difficulty (LOD) of each question using a 1 - 5 (easy - difficult) rating scale (questions in the 2 - 4 range are acceptable).
- Check the appropriate box if a psychometric flaw is identified:
  - @ The stem lacks sufficient focus to elicit the correct answer (e.g., unclear intent, more information is needed, or too much needless information).
  - @ The stem or distractors contain cues (i.e., clues, specific determiners, phrasing, length, etc).
  - @ The answer choices are a collection of unrelated true/false statements.
  - @ One or more distractors is (are) not credible.
  - @ One or more distractors is (are) partially correct (e.g., if the applicant can make unstated assumptions that are not contradicted by stem).
- Check the appropriate box if a job content error is identified:
  - @ The question is not linked to the job requirements (i.e., the question has a valid K/A but, as written, is not operational in content).
  - @ The question requires the recall of knowledge that is too specific for the closed reference test mode (i.e., it is not required to be known from memory).
  - @ The question contains data with an unrealistic level of accuracy or inconsistent units (e.g., panel meter in percent with question in gallons).
  - @ The question requires reverse logic or application compared to the job requirements.
- Check questions that are sampled for conformance with the approved K/A and those that are designated SRO-only (K/A and license level mismatches are unacceptable).
- Based on the reviewer's judgment, is the question as written (U)nacceptable (requiring repair or replacement), in need of (E)ditorial enhancement, or (S)atisfactory?
- At a minimum, explain any "U" ratings (e.g., how the Appendix B psychometric attributes are not being met).
