

NUCLEAR ENERGY INSTITUTE

**Anthony R. Pietrangelo**  
SENIOR DIRECTOR, RISK REGULATION  
NUCLEAR GENERATION

April 12, 2005

Mr. James W. Andersen  
Inspection Program Branch  
Office of Nuclear Reactor Regulation  
Mail Stop O7 A15  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

**SUBJECT: Estimate of Resources to Support Reactor Oversight Process**

Dear Mr. Andersen:

You requested an estimate of the amount of time required for utilities participating in the Reactor Oversight Process to provide performance indicator data.

We have reviewed the resource estimates provided by NEI in an April 22, 2002 response to a similar request. These estimates, detailed below, remain applicable as general estimates of the resources necessary to provide performance indicator data.

- 40 hours per year per utility to maintain and implement procedures for collecting and reporting performance indicator data.
- 200 hours per data submittal (quarterly) per unit to collect and report data.

Please contact me if you have any questions on this matter.

Sincerely,

A handwritten signature in black ink that reads "Anthony R. Pietrangelo". The signature is written in a cursive, flowing style.

Anthony R. Pietrangelo

c: Mr. David K. Allsopp, NRC
