Subject: Summary of Call with Pete Miner of USEC

On September 22, 2005, USEC submitted a letter, AET 05-0074, notifying us, in accordance with 10 CFR 51.101(c), that they planned to perform some geotechnical testing on soils surrounding the proposed American Centrifuge Plant. I called Pete on September 22, 2005, and informed him that the letter was adequate and that they could proceed with the testing.
