**Date:** 9/12/05 4:58PM  
**Subject:** Summary of my phone call discussion with Pete Miner of USEC

Brian,

I asked Pete to:

1. on Page 3-19 of the application, change 100 mg to 40 mg uranium intake,
2. reinstate the figures of Appendix H of the ISA Summary that were removed in the most recent revision or provide justification for their removal,
3. reinstate the consequence tables in Appendix I of the ISA Summary or provide justification for why the tables were removed in the most recent ISA Summary revision
4. reinstate the figures provided in Appendix A of the License Application that were removed in the most recent revision or provide justification for their removal,
5. include in Chapter 1 of the License Application, the figures that were provided in response to RAI LA-1, and
6. on Page 1-18 (Section 1.1.5.5.4) of the License Application, change the words "sublimation" and "sublimed" to "desublimation" and "desublimed," respectively.

Pete acknowledged the requests and said that he would get back to me. Yawar
