Subject: Re: Simplification of NRC review for license conditions

To NRC:

The State of Georgia commits to implement increased controls identical to those dispatched by NRC on September 2, 2005 (RCPD-05-014), subject to the following change:

Georgia licensees will notify the Georgia regulatory agency rather than the NRC Operations Center to satisfy the requirements of IC2.d and IC3.a.4.

We will use the identical table of radionuclides that NRC provided in RCPD-05-014.

We we use the identical letter and license condition provided by the Organization of Agreement States in their letter dated 9/6/05, with information from Georgia , substituted for the bolded notations.

Cynthia Sanders, Manager
Georgia Department of Natural Resources
Radioactive Materials Program
