

NOTICE OF VIOLATION

Wisconsin Electric Power Company
Point Beach Nuclear Plant

Docket Nos. 50-266; 50-301;
72-005
License Nos. DPR-24; DPR-27

During an NRC inspection conducted from June 17, 1995 through August 11, 1995, a violation of NRC requirements was identified. In accordance with the NUREG-1600, "General Statement of Policy and Procedure for NRC Enforcement Actions," the violation is listed below:

Section 3.F of Amendments 37 and 42 of the Facility Operating Licenses No. DPR-24 and DPR-27 requires the licensee to maintain in effect and fully implement all provisions of the Commission approved Physical Security and Contingency Plans, including amendments and changes made pursuant to the authority of 10 CFR 50.54(p).

Section 2.1, Paragraph 5.0 of the approved Point Beach Security Plan requires an outage of any intrusion alarm zone be monitored by a security compensatory measure.

Contrary to the above, on July 13, 1995, the licensee failed to implement compensatory measures for a period of 23 minutes for a protected area intrusion alarm zone that was not functioning, (266/301-95008-02 (DRSS)).

This is a repeat violation of an event that occurred on March 23, 1994.

This is a Severity Level IV violation (Supplement III).

Pursuant to the provisions of 10 CFR 2.201, Wisconsin Electric is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555, with a copy to the Regional Administrator, Region III, and a copy to the NRC Resident Inspector, within 30 days of the date of the letter transmitting this Notice. This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or if contested, the basis for disputing the violation; (2) corrective action taken and the results achieved; (3) corrective action to be taken to avoid further violations; and (4) the date when full compliance will be achieved. Where good cause is shown, consideration may be given to extending your response time.
