RE: Extension for NRC license #52-06121-02

Dear Sir or Madam:

San Juan City Hospital is in the process of disposing of all radioactive sources at this facility and is in the process of terminating their license. Currently all sealed sources were leak tested on September 12, 2005 and the results were forwarded to Mr. Roberto Gonzales of Bristol-Myers Squibb Imaging. It is to my understanding that Mr. Gonzales has contacted Dr. Valentin Rivera Romero (Director) and is waiting for a PO # to proceed with the removal of the sources.

Please extend the renewal date of this license so that we may dispose all of the sources and proceed in the termination process.

Sincerely

  
David Rhoe  
Radiation Safety Consultant
