Dear Ms. Hall:

We have reviewed the North Carolina legally binding license condition to implement increased controls for certain licensees that possess certain radioactive materials in quantities of concern, received by our office on September 28, 2005. This license condition was reviewed by comparison to the equivalent NRC requirements that were transmitted from this office on September 2, 2005. We discussed our review of the license condition with Lee Cox on September 28, 2005.

We have determined that the North Carolina license condition meets the compatibility category 'B' designation in NRC Order EA-05-090.

The SRS Data Sheet summarizes our knowledge of the status of other North Carolina regulations and legal binding requirements, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, will be posted on the STP website:
