Dear Mr. Brown:

Enclosed is a revised chapter of our Fundamental Nuclear Material Control Plan. The revisions were made pursuant to discussions with Mr. Ray Jackson of your staff, and should complete the revisions needed to eliminate the need for independent measurements for  $UF_6$  receipts. The required fee for this change has been paid.

Other minor editorial and updating changes covered by 10 CFR 70.32(c) have also been made. Substantive changes and new text are denoted by an asterisk in the margin. Please advise if additional information is required.

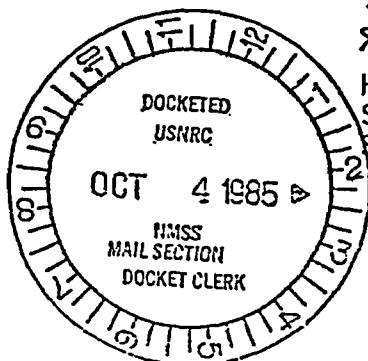

Very truly yours,

COMBUSTION ENGINEERING, INC.
