Dear Mr. Jackson:

Enclosed is a revision to our Fundamental Nuclear Material Control Plan to cover receipt and measurement of UF₆ cylinder heels. The process used is described in an attachment to the Plan Appendix. No other changes have been made.

Also, enclosed is a check for the \$150.00 minimum review fee.

Please contact me if you have questions or require further information. We would like to start receiving shipments of heels by mid - April.

Very truly yours,

COMBUSTION ENGINEERING, INC.
