Reference: Request to Eliminate Storage Facility Addresses
 Control # 137550
 AlexCom & Associates, Inc. (Licensee No. 45-25162-01) 03032440
 Stafford County, Virginia

Mr Lodhi,

This letter is intended to serve as a request to eliminate the 7668 Southern Oak Ct and 9928 West Midland Way storage addresses from our license. During the period when gauges might have been stored at these addresses all leak tests were performed at a six (6) month interval with acceptable results. Based upon these findings, AlexCom is willing to certify that these facilities were exposed to negligible, if any, amounts of radiation.

Please feel free to contact me at 540-379-0362 with any questions or comments regarding this request.

Thank you in advance,

Chuck Newman, PE
 Geotechnical Engineer / Radiation Safety Officer
