Re: License No. 37-20770-01

03022053

Dear Sir,

Please be advised that the devices listed on the referenced license in item 6, Byproduct, source and/ or special material have been transferred back to the manufacturer.

Devices acquired under a general license and as are listed in a recent license renewal application in Item No. 5, Radioactive Material are to be placed in the Specific License. These devices are:
