Summary: I had received Dr. Bhat's reply dated September 30, 2005. The reply to #3 and #4 from Ms. Ullrich's letter dated September 6, 2005, needs confirmed by Dr. Bhat. I asked Dr. Bhat how people working with radionuclides knew about license conditions, waste disposal, safe use of radionuclides and emergency procedures. He stated that they get training on those topics. I stated that he needs to specifically state that he will train on those topics by a signed letter.

On #4, I stated that he needs to confirm that he will follow Appendix M to NUREG-1556, Volume 7 and state that he may upgrade his survey instruments as necessary. He should read what Appendix M requires. The main requirement is to perform annual calibration. He stated that he didn't want to pay for calibration. I stated that it was a necessary cost in order to handle radioactive material safely.

He stated that he would review #3 and #4 and write a statement confirming that he would follow the above 2 items. He estimated that he would send or fax a letter next week.
