Name of Licensee:	Sarnoff Corporation
Name of Participant(s):	Dr. James Matey
Telephone No.	609-734-2868
Subject: <small>(NOTE: This will be used as the Documents Title in ADAMS)</small>	RAI, Response of Letter dated October 4, 2005.
Summary:	<ol style="list-style-type: none"> 1. Request for the manufacturer and source model number for the sealed sources that didn't have the manufacturer and the source model number supplied in the original application. 2. The response to question #3 was not sufficient. You need to confirm that regulatory requirements, license specific program elements, survey program, and waste handling are part of your training program. 3. The supporting documentation for showing that no one at your facility will not receive over 100 millirem in a year is insufficient. You must show that personnel will not get over 100 millirem in accident scenarios. Alternatively, you can train personnel that handle radioactivity.
Action Required:	Sarnoff Corp. will submit the manufacture source model numbers, confirm the elements specified are part of the training program, and will reconsider the training requirements.
