Ms. Marilyn Kray
Vice President, Special Projects
Exelon Generation
200 Exelon Way, KSA3-E
Kennett Square, PA 19348

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION (RAI) REGARDING THE
ENVIRONMENTAL PORTION OF THE EARLY SITE PERMIT APPLICATION
FOR THE EXELON GENERATION COMPANY SITE (TAC NO. MC1125)

Dear Ms. Kray:

As a result of the staff's continuing review of the environmental portion of the application by Exelon Generation Company, LLC (Exelon) for an early site permit (ESP) at the EGC ESP site, the staff has identified areas where additional information is needed to complete its review. Specifically, the staff has identified the need for additional information regarding the status of compliance with other requirements associated with the proposed action. Enclosed is the staff's RAI. As discussed with your staff, we request that you expeditiously provide your response to this RAI in order to support the early site permit review schedule. If you have any questions, please contact me at (301) 415-1120.

Sincerely,

/RA/

Thomas J. Kenyon, Senior Project Manager
Environmental Section
License Renewal and Environmental Impacts Program
Division of Regulatory Improvement Programs
Office of Nuclear Reactor Regulation

Docket No.: 52-007

Enclosure: As stated

**Request for Additional Information Regarding
The Exelon Generation Company, LLC Early Site Permit Application**

Permits

Table 1.2-1 of the Environmental Report (ER) sets forth a list of authorizations, permits, and certifications potentially required by Federal, state, regional, local, and affected Native American tribal agencies for activities related to the construction and operation of any new units at the proposed early site permit (ESP) site. Included among these is certification pursuant to Section 401 of the Federal Water Pollution Control Act. In ER Section 1.2, Exelon states that because the purpose of the ER is only to establish the feasibility of the proposed location, any applicable permits will not be applied for until the combined operating license (COL) phase.

Exelon's application includes a site redress plan. Certain site preparation and limited construction activities that would be authorized pursuant to Title 10 of the Code of Federal Regulations Parts 52.25(a) and 50.10(e)(1), if the ESP is issued, would require, among other approvals, a Section 401 certification from the Illinois Environmental Protection Agency (IEPA). This could be required before the COL phase, depending on the planned start of these limited construction activities. Therefore, provide the status of this certification.
