Summary:	<p>9:39am Returned call to Dr. Ramzianfar. He explained that he wanted clarification on some of the questions in the deficiency letter dated Oct 12, 2005. He stated that he had previously submitted documentation supporting the request to remove The Charleston division site from the license and he thought it should have been removed in a prior amendment. I told him that I may have overlooked that documentation and would look through the files again and return his call.</p> <p>2:24pm I returned the call. I informed him that I did find a letter dated June 13, 2002 which is a response to a notice of violation stating that a survey was done at the Charleston Division and there was no contamination distinguishable from background. I then asked if he had submitted an amendment before the current requesting to remove the building. He said no because he understood the matter to be closed. I explained that the response to the notice was not an amendment and that may be the reason the building remains on the license. He said that he would send me the necessary documentation for the building to be released.</p>
