Subject: DHA White Paper on Spent Fuel

Attached is a draft white paper created by DHS and its contractor regarding spent fuel security issues. It is part of a series of papers they are creating on various elements of the national infrastructure. We received the report this pm and DHS initially requested comments by COB today. We have advised them that agency comments will be available in the next week time frame.

Please review and, if you have comments, please provide to NSIR (Shea, Desmond, Ordaz) by COB Monday.

Be advised that Commission has paper for awareness and is aware that we are generating comments.

Thanks,

Joe Shea
