Subject: RE: Louisiana Issuance of Increased Controls

To anm@nrc.gov

The State of Louisiana commits to implement increased controls identical to those dispatched by the NRC on September 2, 2005 (RCPD-05-014), subject to the following change:

State of Louisiana licensees will notify the Louisiana Department of Environmental Quality rather than the NRC Operations Center to satisfy the requirements of IC2.d and IC3.a.4.

The State will use the identical table of radionuclides of concern that the NRC provided in RCPD-05-014.

The State will use the identical letter and license condition provided by the Organization of Agreement States (OAS) in their letter dated September 6, 2005, with information specific to the State of Louisiana, substituted for the bolded notations.
