Re: **Changes to NRC License Renewal Application**

Christ Hospital has recently applied for renewal of its Nuclear Regulatory Commission license. The Radiation Safety Officer that was listed on the application has recently left the institution. The name that appeared on the application was that of Linda Veldkamp. The new Radiation Safety Officer at Christ Hospital is Alan Shaiman, M.D., Chief of Radiation Oncology division. If you have any other questions with regard to this matter please contact me directly at 201-795-8247.

MD:jl
