<p>Name of Licensee: Rider University</p> <p>Name of Participant(s): Kelly Bidle, Ph.D., Radiation Safety Officer Steven Courtemanche, Health Physicist NRC</p> <p>Telephone No. 609-895-5418 610-337-5075</p> <p>Subject: Additional Information for License Amendment (NOTE: This will be used as the Documents Title in ADAMS)</p>		
<p>Summary: I left a message on Dr. Bidle's voice-mail for her to get back in touch with me about the licensee's amendment request.</p> <p>11:45 Dr. Bidle stated that the information regarding the disposition of the Nickel-63 source was part of the license renewal. Bryan Parker had also performed an inspection recently and confirmed the information. I stated that I would look into the matter and get back in touch with her.</p> <p>13:00 I spoke with Dr. Bidle. I informed her that my research into the license revealed that the Nickel-63 source was an Electron Capture Detector for a Perkin Elmer 900 gas chromatograph. The ECD was seen by NRC inspectors in 1985, 1990 and 1994. The device was never installed into the gas chromatograph but was kept in storage in the fume hood in the laboratory of Edwin Roth, Ph.D. The ECD was not identified as being present during the NRC inspection of 2000. I informed Dr. Bidle that Perkin Elmer often referred licensees to NRD, Inc. as a means of disposing of unwanted ECD. Dr. Bidle stated that some of Dr. Roth's associates were still at the university and that she would contact them to determine if the whereabouts of the ECD could be determined.</p>
