•When does NRC expect to endorse a specific SBT methodology?

•What are NRC expectations regarding V & V legacy issues?
    - Will NRC require simulator design basis reconstitution?
    - Is NRC band-aiding V&V issues with SBT emphasis?

•What is NRC view on level of detail for SBT (TTC/MANTG deltas)?

•Inclusion of capability criteria (4.1.4) in SBT documentation, while feasible, will be costly and of little/no benefit.
