Re: Renewal of License No. 29-28143-01 03030379

To Whom It May Concern:

This is a request for the renewal of the above-referenced material license for the gas chromatograph (GC) unit at First Environment, Inc. In accordance with my conversation with Mr. Steven Courtemanche, we are forwarding this letter as request for our license renewal.

Currently, we are still in possession of the subject sealed source (GC detector) for storage purposes. We are also currently pursuing the succession company (of the original manufacturer) for the disposal of the subject sealed source. At this point we are not certain how much time is required for the final disposal of this unit.

We are asking that our license be renewed in order to allow us time to make appropriate arrangements for the disposal and cancellation of the subject license.

New Jersey We appreciate your assistance in this matter. If you have any questions concerning this renewal, please contact me.

California

Very truly yours,

District of Columbia
